

## Daimler Launches Global Initiative For More Environmentally Friendly Commercial Vehicles

{mosgoogle right}Welcome back ladies and gentlemen; I hope you all had a splendid weekend. To kick things off this morning, Daimler has taken a moment to detail its new "Shaping Future Transportation" global initiative to produce commercial vehicles with environmentally friendly alternate drive systems. Aimed at drastically reducing the emissions and fuel consumption of commercial vehicles, the new initiative boasts a total of 16 different trucks and buses with brands including Mercedes-Benz, Freightliner, Mitsubishi and Orion, all of which feature alternate drive systems and fuels.
