

World Premiere Of The Mercedes CLS 350 CGI

{mosgoogle right} Mercedes has announced today that they will be adding a new member to the CLS family, dubbed the Mercedes-Benz CLS 350 CGI. The CLS 350 CGI, or Stratified-Charged Gasoline Injection if you're not the acronym-inclined type, is the world's first vehicle sporting a petrol engine to feature piezoelectric direct injection and spray-guided combustion. Or in plain English, the CLS has more power than a conventional CLS 350, all while consuming less fuel. Sound too good be to true?
