

Mercedes-Benz At The Geneva Motor Show: The Mercedes SLK 2LOOK Edition

{mosgoogle right}At the 2009 Geneva Motor Show, Mercedes-Benz is presenting a new, eye-catching special model in the successful SLK series with the model suffix "2LOOK Edition". This new model variant, which is specifically aimed at a younger target group, is only available in glossy black or lustrous white. This styling touch is harmoniously complemented by a two-tone interior with high-grade materials in dramatic black-and-white contrasts.

The attraction of opposites – this is the concept with which the new Mercedes-Benz SLK "2LOOK Edition" special model will enter the new open-top season. The intentional limitation to a black-and-white colour scheme both inside and out lends this successful two-seater with a vario-roof an exclusive, dramatic appearance and ensures a decidedly eye-catching presence.
