Car And Driver Looks At The Mercedes E320 BLUETEC

{mosgoogle right}Before I begin this story, let me first apologize for the lack of updates yesterday. An influx of work at another of my other occupations required the better part of my Thursday; thankfully, it appears yesterday was a rather slow day for Mercedes news. One of the stories we did miss, however, was Car and Driver's look at the upcoming Mercedes E320 BLUETEC. Although they didn't review it, they do provide a brief overview of the diesel sedan's technology, which, if you're new to the world of BLUETEC, will at least give you some idea how Mercedes' clean diesel functions. They also cover the E320 BLUETEC's price (which due to my alzheimer's, I can't remember if we've already mentioned), but if not, pricing is set at $52,325 - a mere $1,000 over the gasoline-power E350.
