

A Closer Look At The Mercedes S63 AMG

{mosgoogle right}Mark your calendars ladies and gentlemen; in January 2007, one of the most covetable S-Class models ever produced will begin making its way to a dealership near you. Powered by the completely-AMG developed 6.3 Liter V8 which produces 386 kW/525 hp at 6800 rpm and a maximum torque of 630 Nm at 5200 rpm, the S63 AMG, in its all its luxuriously-appointed beauty, will continue Mercedes' tradition of redefining what is rational, offering its occupants a new level of exhilaration and opulence. A 0-62 mph time of 4.6 seconds... an electronically-limited top speed of 155 mph... all wrapped in a four-door haven of serenity. This is the basis of the new S63 AMG, and this is what it will provide to those lucky enough to attain it.
