Lorinser Unveils ML Black and White Tuning Package For The Mercedes M-Class

{mosgoogle right}If you're a fan of Mercedes' M-Class Edition 10 and its various darkened elements, you'll no doubt love the latest ML tuning package from German super-tuner Lorinser. Titled the ML Black and White, Lorinser's latest entrant in the vast sea of tuner Mercedes models is based on the ML320 CDI, and as you've no doubt noticed, capitalizes on the trendy contrasting color scheme that's grown popular as of late. As for the features of the new Lorinser M-Class, highlights include a new front apron, side skirts and rear apron all painted in white; 22-inch RS9 wheels in matte black; and a number of other darkened elements, including a new front grille and tinted windows.
