BRABUS Debuts New Tuning Package For The Updated Mercedes-Benz SLK Models

{mosgoogle right}Just in time to coincide with the market launch of the new-generation Mercedes-Benz SLK-Class, BRABUS has introduced a number of new tuning products aimed at making the already dynamic model even more sporty and charismatic. Take, for example, the SLK55 AMG. Never a group content with factory output, BRABUS engineers tuned the SLK55's standard 5.5-Liter 265 kW/360 hp V8, boosting output to an impressive 327 kW/445 hp (438 hp SAE net). The result? A 0-62 mph time of just 4.3 seconds, and a top speed of 191 mph.
