The Mercedes-Benz CL63 AMG, CLS63 AMG and SL350 - all are covetable models, and in this, our newest Mercedes Review Roundup installment, all managed to earn at least four stars (out of a possible five) from those that tested them. For a more comprehensive look at why each of the aforementioned models procured the loving admiration of the various reviewers, you can excerpts of each review as well as links back to the complete articles immediately after the jump.
