

Mercedes-Benz C250 CDI BlueEFFICIENCY Special Feature: Sporty, Economical And Environmentally Frien

{mosgoogle right}The Mercedes-Benz C-Class is a great favourite with the public. Since its official market launch on 31st March, 2007, over 400,000 buyers have opted for a saloon or an estate from this model series. As a result of this, the C-Class has maintained its position as world-wide market leader in its segment. The new C 250 CDI BlueEFFICIENCY Prime Edition adds a further highlight to this successful model series which has already received numerous distinctions. With the new diesel engine, which celebrates its world premiere in this model, Mercedes-Benz shows that frugal consumption and high output “ and with them both environmentally-friendly driving and driving pleasure “ can be mutually compatible.
