

The Mercedes-Benz GLK At SEMA:Â The BRABUS GLK Widestar

{mosgoogle right}There was absolutely no doubt in the mind of Professor Bodo Buschmann, President of Mercedes customization specialist BRABUS, â€œEven in the face of the extreme rework that characterizes the vehicles at SEMA, we were going to stick firmly to our principles and go for a more practicable solution. Our GLKWidestar grabs attention with its stunning appearance, while at the same time, offering a high degree of everyday usability in all conditions.â€• And thus, it is fair to say that, among the four tuning competitors, the GLKWidestar represents the â€œEuropeanâ€• solution. The SUV was conceived by development engineers on the basis of automotive pragmatism that stands by classic Mercedes-Benz characteristics. The Widestar is an interpretation of the GLKas an on-road machine with corner-hugging agility that also pays tribute to the high levels of refinement associated with Mercedes vehicles.
